INTRO INTRODUCTION

ACN GROUP with its diversified activities and accumulated experience is now a well-established leading group in Kingdom of Saudi Arabia in the field of Construction & Engineering.

ACN GROUP has built its genuine reputation on their ability to execute projects in a rapid, efficient, performing and accurate manner, with an absolute master mind in commanding advanced technologies, combined with experience and challenge aiming to meet targets in diverse environments.

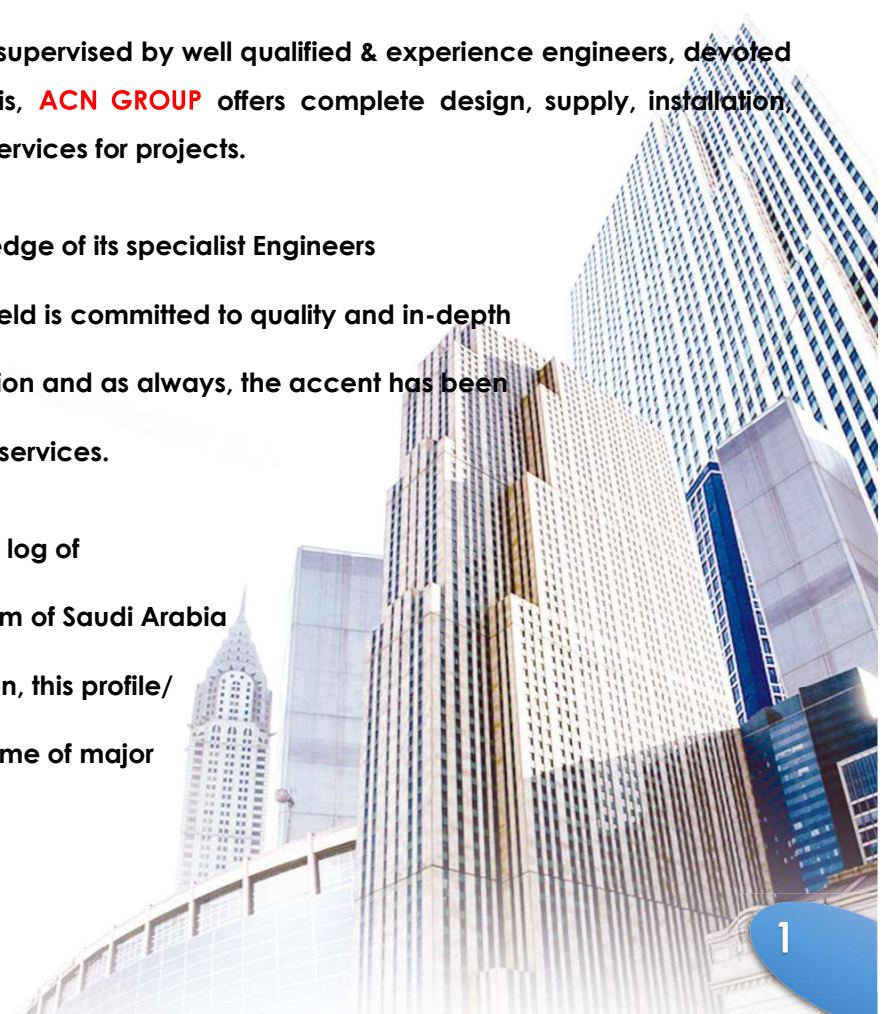

Competition is turning into global race against time, and anyone who wants to hold the distinction in the field has to stand the comparison with the best.

Closer customer relations is a fundamental approach in the services sector, which eliminates confrontation and seeks benefits for both parties from team work hoping that you will prequalify our firm as a prospective bidder for electromechanical works for your future projects, we look forward to serve you.

Today, **ACN GROUP** is fully managed and supervised by well qualified & experience engineers, devoted to construction fields. On a turnkey basis, **ACN GROUP** offers complete design, supply, installation, testing commissioning and maintenance services for projects.

ACN GROUP staff with the skills and knowledge of its specialist Engineers and professional team in their respective field is committed to quality and in-depth service to its customers throughout the region and as always, the accent has been on professionalism, expertise and efficient services.

ACN GROUP has successfully completed a log of major projects in various regions of kingdom of Saudi Arabia with highly rank of accuracy and perfection, this profile/ prepublication documents shows lists of some of major completed and current projects.

VISION

The **ACN GROUP** has the vision to be an active firm in the improvement of the comfort standards of living based on progressive concepts, selective sourcing of equipment and material and personal care to clients. It is our commitment to meet personally and systematically every need in fields of Construction services through a positive input in Engineering, perfection and efficiency.

We are a **GROUP** providing Civil, Finishing, mechanical & electrical instrumentation and control construction expertise, material and specialized equipment to the infrastructure and Power & Water Industries. It is our vision to become one of the few 100% Saudi owned companies financially and technically capable of competing within international markets throughout the MENA (Middle East & North African) countries. Our vision is driven by the need to be ranked within top 100 Saudi companies in terms of gross revenue.

At **ACN GROUP**, we set goals beyond the reach of our competition with the vision of becoming a market leader capable of delivering new products and improved services, which results in the direct reduction of costs, waste efficiencies and provides an overall positive impact for our customers, our local community and our surrounding environment; thus, ensuring our position as a conscientious corporate citizen. Our future visions are: Establish ACN as one of the premium MEP contractor throughout Kingdom.

- Diversify ACN's services to ensure its profitability and to reach out to a larger market.
